

Application to begin after school Mother Tongue Language Instruction at AISB

The first part of our mission statement says that we should “ provide an outstanding international education...” One of the ways we can foster this outstanding international education is to nurture and stimulate high-level mother tongue proficiency. Of course it is impossible to provide this to all our students who represent 20 + languages so we are seeking your partnership. AISB is happy to help facilitate this instruction by offering space, copying supplies and encouragement for the creation of mother tongue language programs. We are currently cooperating with the Dutch community to provide after school language services to children who would like to continue with the Dutch language. If you are interested in starting an after school language program in your mother tongue, please fill out this application and return it to the Director’s office.

Name:

Phone:

Email:
