Roughly the size of Oregon, Romania is the second largest country in the area, after Poland. **Bucharest** — the capital city of Romania — is located at the same latitude with the cities of Portland - Oregon; Montreal - Canada; Venice - Italy; and Bordeaux - France. Romania's territory features splendid mountains, beautiful rolling hills, fertile plains and numerous rivers and lakes. The Carpathian Mountains traverse the center of the country bordered on both sides by foothills and finally the great plains of the outer rim. Forests cover over one quarter of the country and the fauna is one of the richest in Europe including bears, deer, lynx, chamois and wolves. The legendary Danube River ends its eight-country journey at the Black Sea, after forming one of the largest and most bio-diverse wetlands in the world, the Danube Delta. About a third of the country consists of the Carpathian Mountains (also known as the Transylvanian Alps). Another third is hills and plateaus, rich with orchards and vineyards. The final third is a fertile plain, largely devoted to agriculture.

Climate

Because of its position on the southeastern portion of the European continent, Romania has a climate which ranges from temperate to continental. The average annual temperature is 11 °C (51.8 °F) in the south and middle-south and 8 °C (46.4 °F) in northeast. In Bucharest, the temperature ranges from average low -5 °C (23 °F) in January to average high 29 °C (84.2 °F) in July and August, with average temperatures of -3 °C (26.6 °F) in January and 23 °C (73.4 °F) in July and August. Spring is pleasant with cool mornings and nights and warm days. Summer is quite warm, with extended sunny days. The hottest areas in summer are the lowlands in southern and eastern Romania where 37.7 °C (100 °F) is often reached in July and August. Temperatures are always cooler in the mountains. Autumn is dry and cool, with fields and trees producing colorful foliage, much like New England. Winters can be cold, especially in the mountains. While not the rule, abundant snowfalls may occur throughout the country, from December to mid-March.
